Subject: Abbott Inventory Update: Metabolic Products and Similac PM 60/40

Dear Healthcare Professional,

On February 17, 2022, Abbott initiated a proactive, voluntary product recall of certain powder formulas (Similac, Alimentum and EleCare) manufactured in Sturgis, Michigan, one of the company's manufacturing facilities. **The recall does not include any of our metabolic products designed for inborn errors of metabolism or Similac PM 60/40.**

Abbott's metabolic products and Similac PM 60/40 are experiencing an extended supply interruption. Unfortunately, at this time, we do not know when these products will be available to ship. Please know we are doing everything we can to address this situation. Please work with your patients to transition them to a suitable alternative, based on how much product the patient has on hand and the time needed to transition.

RCF No Carbohydrate Added Formula is not impacted and is still available.

The following products are included in the extended supply interruption:

Product Description	Item #	Product Description	Item #
Similac PM 60/40	00850	I-Valex-1	67044
Calcilo XD	53328	I-Valex-2	67046
ProViMin	50260	Ketonex-1	67048
Pro-Phree	67030	Ketonex-2	67050
Cyclinex-1	67032	Phenex-1	67052
Cyclinex-2	67034	Phenex-2 Unflavored	67054
Glutarex-1	67036	Phenex-2 Vanilla	67056
Glutarex-2	67038	Propimex-1	67058
Hominex-1	67040	Propimex-2	67060
Hominex-2	67042	Tyrex-1	67062
		Tyrex-2	67064

For questions about Metabolic products or Similac PM 60/40, please contact the Abbott Metabolic and Similac PM 60/40 Hotline at 1-800-986-8755.

For questions not related to Metabolics or Similac PM 60/40, please contact Abbott Consumer Relations at 1-800-227-5767.

Please know we are deeply sorry for any distress this causes for your patients. We recognize this presents a challenge for your patients needing metabolic formulas or Similac PM 60/40.

The health and well-being of these complex patients is our priority. We are doing everything we can to support you and your patients during this time.

Sincerely,

Karyn Wulf, MD, MPH
Abbott Medical Director
